KampData ZipAddressing Datasheet

KampData ZipAddressing returns the city, state, and country when users enter or change customers' ZIP Codes.

Features

➢ Enter addresses more quickly and accurately by only having to enter the ZIP Code, allowing the ZipAddressing feature to fill in the City, State, and Country Code automatically.

➢ Multiple import sources (*sold separately*) supported for the creation and maintenance of the Zip Address table.

➢ The ZipAddressing is enabled in the following Microsoft Dynamics® GP windows:

- Customer Maintenance
- Customer Address Maintenance
- Invoice Ship To Address Entry
- Sales Ship To Address Entry
- Sales Prospect Maintenance
- Vendor Maintenance
- Vendor Address Maintenance
- Purchasing Ship To Address Entry
- IV Site Maintenance

KampData ZipAddressing Requirements

ZipAddressing requires a source of Zip Addresses, which is sold separately.
